

## G3PJ-215B-PU DC12-24

Relais statique, 1 phase 15a 24-240 vac, avec dissipateur de chaleur, montage sur rail din, 12-24v dc avec borne push-in

# Spécifications

|                                                |                      |
|------------------------------------------------|----------------------|
| Application                                    | Power control        |
| Number of phases                               | 1                    |
| Number of poles                                | 1                    |
| Mounting method                                | DIN rail/screw       |
| Terminal                                       | Push-in, Screw       |
| Complete with socket                           | ✗                    |
| LED indicator                                  | ✓                    |
| Rated operational voltage, AC                  | 24-240 V             |
| Operating voltage range, AC                    | 19-264 V             |
| Rated operation current I <sub>e</sub> at AC-1 | 18 A                 |
| Rated load current Close mounting              | 15 A                 |
| Permissible I <sup>2</sup> t value             | 260 A <sup>2</sup> s |
| Product Height (unpacked)                      | 100 mm               |
| Product Width (unpacked)                       | 22.5 mm              |
| Product Depth (unpacked)                       | 100 mm               |
| Supply voltage DC                              | 12-24 V              |
| Control current max.                           | 7 mA                 |
| Must operate voltage max.                      | 9.6 V                |
| Must release voltage min.                      | 1 V                  |
| Maximum operating temperature                  | 80 °C                |
| Minimum operating temperature                  | -30 °C               |
| Isolation                                      | Phototriac           |
